SUBJECT: Request for Training Proposals (U)

Dr. Harold E. Puthoff
SRI-International
333 Ravenswood Avenue
Menlo Park, California 94025

Dear Dr. Puthoff:

(S/CL-3/NOFORN) I recently reviewed my personnel situation and mission requirements for 1985 and 1986, and have concluded that the best course of action for one portion of the INSCOM CENTER LANE Project is to focus on coordinate remote viewing (CRV) for the immediate future. Based on that decision, I have programmed resources to permit initial training for newly assigned personnel and follow-on training for the individuals currently in training under contract ESU 83-145.

(S/CL-3/NOFORN) Specifically, please submit technical and financial proposals to conduct initial training for two personnel in CRV Stages I through IV and follow-on training for two personnel in CRV Stages IV through VI. The availability date for initial Stage I-IV training is September 1984. The availability date for follow-on training is contingent upon completion of contract ESU 83-145; however, I hope that training will begin in January 1985.

(S/CL-3/NOFORN) As I mentioned in my letter of 24 April 1984, I am concerned about the lack of development of Stage V, therefore, if the proposal for advanced training includes a Stage V, I will need evidence that research has been completed.
